

OTARI®

CM-20DIS

DVD Disc Inserter (Spindle Type)

Support for Discs Stacked on Spindles

The Otari CM-20DIS DVD Disc Inserter has been designed to answer the request for a device to accept discs stacked on spindles.

Since one spindle can stack 150 discs and the machine can hold two spindles, the CM-20DIS can be loaded with 300 discs.

The CM-20DIS has a space for mounting a disc ID reader and can receive discs rejected by the ID reader.
